FAST FACTS

AHN ALLEGHENY GENERAL
Hospital

At AGH, doctors and clinical specialists work in multidisciplinary teams to provide personalized, comprehensive care for each patient — and access to clinical trials for the newest therapies.

CANCER INSTITUTE

We treat many types of cancer with the latest advancements in surgery, radiation, chemotherapy, biologic therapy, immunotherapy, genomics, and pathology testing. We continue to adopt new technologies to improve results, including the Elekta Unity MR-Linac and GammaPod®.

- Patient navigators help coordinate care in over 20 hospital and community locations.
- The newly opened AHN Cancer Institute — Allegheny General is the nucleus for research, clinical trials, treatment, and medical education.
- We collaborate with Johns Hopkins Sidney Kimmel Cancer Center to give streamlined and guided access to clinical trials and second opinions.

CARDIOVASCULAR INSTITUTE

We keep hearts beating using multimodality imaging and treatment with new medicines, advanced hybrid procedures, and implantable devices to fight heart, thoracic, and vascular disease.

- AGH has the best heart transplant survival rates in the region.**
- Robotic and minimally invasive surgery can reduce risk and speed recovery after coronary artery, aortic, vascular, and cardiac valve repair and replacement.

EMERGENCY MEDICINE

We offer critical 24/7 access to highly skilled emergency care, coordinating with EMS and emergency transport through our Prehospital Care Service team.

- Level 1 trauma center — the highest designation — including care for stroke.
- LifeFlight helicopters from five regional locations can rapidly transport patients to AGH for lifesaving care.

NEUROSCIENCE INSTITUTE

We are an accredited, national leader in providing advanced therapies, proven technologies, and innovative procedures to help patients with complex brain, spine, and neurological conditions.

- We use a patient-centered, multidisciplinary approach to diagnose and treat neurologic disorders.
- Groundbreaking minimally invasive and robotic-assisted procedures help us enhance patient safety and lower risk.

ORTHOPAEDIC INSTITUTE

Our high-quality specialized care for orthopaedic injuries and complex musculoskeletal conditions helps patients regain mobility and health.

- For joint replacement, we use muscle-sparing, minimally invasive, robotic-assisted surgery with advanced pain management.
- New therapies for comprehensive, coordinated concussion care offer patients focused treatment plans so they can get back to everyday activities.
- Elite sports medicine specialists help athletes overcome injuries and return to the game.
- We are the official medical provider of the Pittsburgh Pirates, Pittsburgh Riverhounds SC, and an Official U.S. Olympic Regional Medical Center.

SURGERY INSTITUTE

Through the latest laparoscopic and robotic technologies, more patients have minimally invasive options for surgery, which may give them a faster recovery, less pain, and a shorter hospital stay.

- Innovative surgical techniques help patients with complex hernias.
- AHN is the only system in the region offering combined colorectal and liver surgeries using the da Vinci® Surgical System.
